

Schalkau

chief technologist (m/f/d)

Corresponding to the quality demands of our products, we look for employees (m/f/d) who bring in quality and responsible input, initiative and flexibility as well as interest in technical challenges, enjoy their work and continuous willingness to learn something new.

Committed and technophile specialists, graduates and students are being offered a manifold field of activity and attractive development potentialities.

Your challenges:

- Project management for the construction and further development of flexible, investment-saving and low-risk automation lines, taking into account forward-looking customer requirements
- Supporting the department management to ensure that the engineering/technology department's cost and quality work (CIP) is carried out according to plan
- Monitoring of investments, energy/environmental measures and operational safety
- Technical and technological support of production processes
- Planning, implementation and optimization of assembly processes, methods, procedures and systems
- Carrying out evaluation analyses (including concept evaluations, feasibility assessments, process FMEAs)
- Creating work plans, work instructions and other technical documentation

Your personal attributes:

- Successfully completed engineering studies (mechanical engineering, production technology, plastics technology) or training in a technical profession (e.g. mechatronics) and further training as a state-certified technician (m/f/d), specializing in mechanical engineering or plastics technology
- Experience in the automotive industry desirable
- Good knowledge of manufacturing and assembly processes
- REFA basic knowledge and calculation skills
- Communicative, self-confident appearance
- Good knowledge of English

Our offer:

Wide-ranging and interesting fields of activity with state-of-the-art machinery and engineering processes, continuous growth, flat hierarchies as well as a familiar climate open manifold possibility of an attractive development and suggest own ideas to applicants and employees.

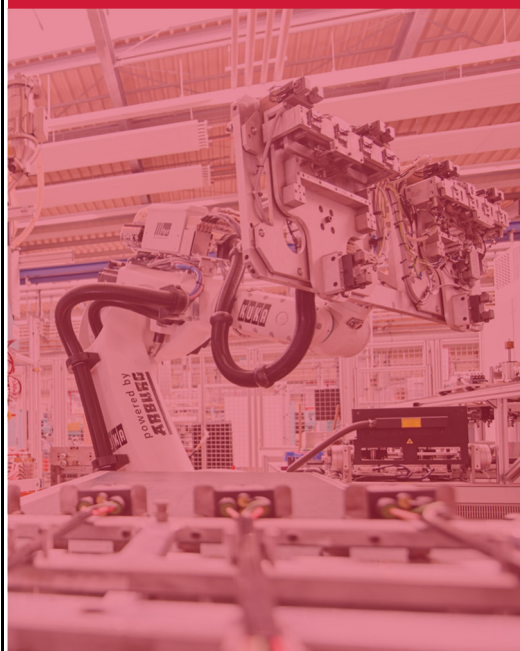

Furthermore, we offer long-term job security, flexible working time models to support work-life-balance, performance-orientated and market-oriented compensation as well as further social benefit. Daily catering in our cafeteria including „Thüringer Bratwurst“ make the offer of working environment at Elektra GmbH complete.

ELEKTRA with its circa 900 employees is an innovative global acting automotive supplier with locations in South Thuringia and Poland.

As development supplier and carrier of technology of electro-mechanic components for safety engineering and environmental engineering for leading system providers as well as in the area of surface finishing in day/night design we are a competent contact for our customers.

Decisive competences for this are control of innovative production techniques and highly efficient assembly solutions.

We look forward to your convincing **ONLINE-APPLICATION.**
